

## IN THE REALM OF MUSIC

Harold Berkley, Violinist,  
Offers Difficult Programme  
in Recital.

By Frank H. Warren.

Harold Berkley, a violinist with many friends on his side, made bold to open his recital last evening in Aeolian Hall with the difficult Devil's Trill Sonata of Tartini. In this venture Mr. Berkley was not exactly just to himself for it put to too severe a test the performer's tone and technique that were better adapted to and better employed in the more graceful and fluent Mozart Concerto that followed. Mr. Berkley, in his general treatment of the music he played, showed that he is studious and appreciative of the composer's intent.

As an aid to their building fund, the directors of the Bronx Hospital have engaged Tita Ruffo, Metropolitan baritone, to sing at their benefit concert in the Hippodrome next Sunday night. Mr. Ruffo will give the Paggiacci "Prologue" and other operatic selections. Also on the programme will be Yvonne D'Arle, soprano, of the Metropolitan, and Alberto Sciarretti, pianist.

The New York Symphony Orchestra, walter Damrosch, conductor, will begin its forty-fifth season next Sunday afternoon in Aeolian Hall. The programme includes the first performance in New York of Saint-Saens's zoological fantasy, "Le Carnaval des Animaux." This composition, dating from 1886, was, early in its life, "condemned to oblivion" by the composer's wish. Special provision made by Saint-Saens in his will released the number for public performance and it was heard last February in Paris. There are in the suite fourteen parts with these titles: Introduction and Royal March of the Lion, Hens and Roosters, Wild Asses (feet footed animals), Turtles, Elephant, Kangaroos, Aquarium, Gentlemen With Long Ears, Cuckoo in the Woods.

#### ENDS LIFE ON SHIP RAIL, BODY FALLS INTO SEA

M. G. Craig, Former U. S. Metal,  
Suicide in Puget Sound.

SEATTLE, Wash., Oct. 25.—M. G. Craig, former General Passenger Agent of the Louisville and Nashville Railroad, is dead today. While seated on the rail of the Puget Sound passenger steamer Bremerton, he shot himself, according to officers of the steamer. The body toppled into Puget Sound and was not recovered.

Mr. Craig, who was a brother-in-law of the late Major Gen. Henry W. Lawton, U. S. A., had come to Seattle recently from Louisville.

Bird House, Pianists, Fossils, Swan, Finale.

When the new City Symphony Orchestra, of which Dirk Foch is conductor, opens its season in Carnegie Hall Nov. 18, American music will not be neglected. The City Symphony Orchestra will welcome co-operation from American composers and a serious work by a resident American composer will be carefully read with a view to performing it. The only test will be the excellence of the music. Overtures, symphonic poems, rhapsodies, dance forms, if treated in a dignified manner, as in the waltzes of Brahms, for instance, suites, in fact any type of serious music will be considered. Scores may be sent to Arthur J. Gailor, No. 17 East 43d Street.

## RADIO NEWS EXTRAORDINARY

# ON SALE : Just 350 of these Western Electric Receiving and BROADCASTING STATIONS

SALE PRICE

\$**495**

Plus \$25 for Expert Installation

The Estimated Cost of Producing  
These Sets Today Is \$1565; and  
the Estimate Is Conservative

Each set is a complete receiving and transmitting station for broadcasting news, musical programs, educational lectures, current event lectures, market reports, shipping news, stock market quotations, political campaign speeches, Government reports, opera, concerts and divine services. The field of application is practically unlimited.

#### Each Set Consists of:

Transmitting and Receiving Tuners, Audio Frequency Amplifier, two 350-Volt Dynamotors, Power Switchboard, Loud Speaking Telephone, Hand-set Transmitter, three Western Electric Headphones, one Wall-type Transmitter, five Western Electric V. T.-1 Tubes, three Western Electric V. T.-2 Tubes, one Box of Spare Parts, five 90-Ampere 6-Volt Storage Batteries, one Antenna Switch.

#### Especially Suitable for:

Advanced Amateurs; Radio Clubs; Boy Scout Councils; Schools; Pleasure-boats; Clubs; Lodges; Churches; Newspapers; Municipalities.

## Looks Big---BUT

The picture above shows the entire set just as we have one installed here in the store. But please remember that it can be placed on a table in any room in your house just like an ordinary set. It's not the size that counts, but the quality and power.

#### THE TRANSMITTER

is a 10-watt instrument, with wave lengths up to 600 meters, and a transmitting range of 50 miles or more. Modulation through a constant current system. The plate current, of course, is supplied by the dynamotor.

#### THE RECEIVER

is a two current tuner with five stages of audio frequency amplification. It is also equipped with a Western Electric loud speaker, three Western Electric headphones, two complete sets of Western Electric telephone transmitters, receivers and control. The power comes from a 30-volt storage battery, with a power input of 7 amperes at 30 volts.
